

PATRIOT BUSINESS

Patriot businesses are popping up all over our county, state, and country. Business owners are tired of government bureaucrats and techno-experts telling them that their business is “non-essential.”

We are organizing a group of freedom loving Patriots that demand that we have our lives and our liberty back. The Covid “emergency” has gone too far.

BECOME A PATRIOT BUSINESS

Dear Business Owner:

WE INVITE YOU TO JOIN US

This has been a tough year. Our businesses have been shut down or severely limited by government officials. They told us that we needed 15 days to flatten the curve so that we could protect the population and to stop the Covid-19 virus. Nearly a year later, nothing has changed.

Business owners across Ohio and the country are beginning to realize that these lockdowns are less about health and more about control. What is becoming clear is that the end goal is to eliminate small businesses like yours in favor of big box stores, national restaurant chains, and online shopping.

We have had enough, and it is time we come together to fight back.

We invite you to join thousands of other business owners to draw a line in the sand, refuse to comply any longer, and become a Patriot Business.

THERE IS ANOTHER SIDE

If you’re paying attention, you have noticed there is another side to this Covid-19 lockdown and masking debate. Thousands of scientists and doctors disagree with the lockdowns and dispute the effectiveness of masking and social distancing orders. Those voices have been silenced by government and media so that you can’t hear logical arguments that differ from the established narrative.

If this mask and social distancing policy is about saving lives, why are there two sides? Why does one side feel it needs to silence a different opinion? Isn’t science about asking questions and proving something right, or wrong?

The “experts” have spoken. They say, “It’s Science” and the debate is over, so shut up and do what you’re told.

That is not how Americans live!

WHAT IS REALLY GOING ON?

Socialism is the virus, and Covid-19 is the engine they are using to make it spread. You, and your small business, are a threat to the socialist agenda because you are self-sufficient. The “techno experts” have decided that your business isn’t necessary and plan to force you to close up shop. Every socialist revolution rides in on a Trojan Horse of “emergency.” It is the tactic of Lenin, Hitler, and Mussolini. This technique of manufacturing uninterrupted, serial “emergencies” is how these politicians gain great power as they appeal to the emotions and prejudices of the populace.

SURVIVE AND THRIVE AS A PATRIOT BUSINESS!

Now that you know that they have used you to do their dirty work, you should also know why.

It’s because you, a hard-working small business owner, are the enemy of Big Government AND Big Business. This Goliath wants to destroy you and your livelihood, thus sending all of your customers to Walmart, Amazon, and other Big Box stores lining their own pockets and forcing you and your employees to work for them. You see, small businesses like yours have long been a threat to the socialist agenda because you and your customers are self-sufficient. They need you to continue masking and depend on them for whatever scraps they wish to throw your way.

If you’ve had enough, then you’ll agree that it is time for Patriots like you to stand up and take back our country, our state and your business from politicians and unelected bureaucrats. Their power is derived from us, WE THE PEOPLE. We never granted them the power to shut down our businesses or to force their religious superstitions (masks) on our families, our customers, or our employees.

Join your fellow Patriot Businesses now to revert to the “old normal” (protecting principles of liberty) by rejecting masks, social distancing, curfews, and unwarranted attempts to destroy our businesses and livelihoods. Let freedom ring!

Coalition to Restore Liberty
